

POO

URINE

TOILET PAPER

... are the three things that belong in a toilet.
Everything else should be thrown in the bin.

The three worst things to put in the toilet:

Q-TIP

Does not dissolve in water and will be stuck in the tubes.

WET WIPES

Do not dissolve and become large balls that seal the pipes and destroy drainage pumps.

GREASE/OILS

If poured into a kitchen sink or in the toilet, it will solidify in the pipes and therefore seal pipes and destroy drainage pumps.
